***CRIME AGAINST HUMANITY IN ETHIOPIA:  
THE ADDIS ABABA MASSACRES  
OF JUNE AND NOVEMBER 2005***

**EXTRAORDINARY JOINT COMMITTEE MEETING  
THE EUROPEAN PARLIAMENT  
COMMITTEES ON  
DEVELOPMENT AND FOREIGN AFFAIRS, AND SUB-COMMITTEE ON  
HUMAN RIGHTS**

**May 15, 2006**

Honourable Chairwomen, Mrs. Ana Gomes, Honourable Chairwomen of the Development Committee and the Human Rights Sub-committee and Members of the European Parliament, representatives of the European Commission and the Austrian Presidency of the Council, ladies and gentlemen. First of, I would like to thank the organizers for giving me this opportunity.

My name is Yared Hailemariam. I have worked for the last seven years for the Ethiopian Human Rights Council (EHRCO) as a human rights investigator. I am forced to live in exile following the massacre on November 1 and 2, 2005 in Addis Ababa, because my name was subsequently published on the government’s wanted list along with those of opposition leaders, dissidents and activists who are accused of treason and genocide. Yet, I was not even in the country at the time of the November protests, but attending a Human Rights Defenders Conference in Entebbe organized by Amnesty International with the cooperation of the East and Horn of Africa Human Rights Defenders Project and York University, Canada. Therefore, I had to stay abroad rather risk imprisonment or worse in Ethiopia but will continue my work independently as a human rights defender.

I testify as some one who does not belong any political party and is committed to impartial and independent human rights work.

***“Everyone has the right to life, liberty and security of person” Article 3-UDHR***

While attention is duly paid to recent and ongoing human rights abuses, these abuses fall within the pattern of systematic and widespread human rights violations committed over the past 14 years. In the course of my seven year career with EHRCO, I have received almost on a daily basis, numerous complaints and heard testimonies concerning human rights violations of all sorts. Such violations included extra-judicial killings, torture, beatings, enforced disappearances, rape, and arbitrary detention for months or even years without a day in court.

The Ethiopian Human Rights Council (EHRCO) is the first and only organization in Ethiopia has always been under immense pressure from the government since its establishment. The pressure, however, has intensified since June 2005. Six Ethiopian Human Rights Council staff members and members of the regional committees, including myself, were detained for several weeks following the Addis Ababa massacre by the government. Two of the Ethiopian Human Rights Council’s senior investigators who were highly committed to the protection and promotion of human rights, Wondemagegn Gashu and Chernet Tadesse, were also forced to go into exile.

Four human rights defenders, including the well known defender Professor Mesfin Woldemariam, former chair and founder of EHRCO, are charged in the ongoing treason and genocide trial. Such cases clearly show to the world that human rights defenders in Ethiopia are at high risk and face various kinds of repression, intimidation and harassment, including now charges carrying possible death sentences. In fact, although I can’t speak for EHRCO anymore, I can say that the organization is virtually paralyzed and consequently, Ethiopians are left without any organization they can tell their stories to or that can investigate and bring to light the brutal day-to-day reality of serious human right violations.

My testimony today focuses on the political killings by the security forces, in three incidents in the past year - the June and November post-election demonstrations, where I have new evidence to present indicating the scale of killings was much greater than what the government admitted and confirming our fears that bodies had been secretly removed from hospital morgue and buried in a mass grave; and a separate hardly-reported killing of dozens of detainees in Kaliti prison on 2 November at the same time as the street demonstration and killings but not including arrested demonstrators. I have volumes of documentation on the atrocities comprising figures and pictures but can only present few examples within the time constraints of presentation. In doing so, I would like you, Honorable Chair and ladies and gentleman, to bear in mind that what you will be watching, are not just figures and images, but fellow human beings, with names, addresses, loved ones dreams and life-plans.

***“Everyone has the right to life, liberty and security of person” Article 3-UDHR***

The Kaliti prison incident occurred when a policeman began an argument with a prisoner. Soon the policeman started physically assaulting him in front of other prisoners. The prisoner tried to defend himself, but other prison guards joined the assault and knocked him out. This led to a noisy protest from the other prisoners, some of whom reportedly began throwing rocks at the guards. At this point, the guards came out in full force with their automatic guns, fired shots and forced the prisoners into their cells, and some of my sources say they locked the doors from outside to prevent escape and they fired upon the prisoners inside.

The wall of the prison cell is made of corrugated iron sheet and it was riddled with bullets which even strayed to other buildings. Prisoners were huddled together and tried to use any cover, blanket, mattress, even bodies of their prison mates, anything to shield them from the fiery bullets that were raining upon them from outside and piercing their bodies like knives but very few escaped. Thus on that black day, prisoners awaiting their court verdict and some already convicted, were executed in this way like dogs, and some of their bodies were left unpicked even for a couple of days. The police later announced that seven prisoners were killed while trying to break from jail. But the fact was that at least 60 prisoners were killed. You will find the attached list of 60 killed prisoners. About 26 prisoners who received injuries were taken to the Police Hospital for treatment under tight security, and some of these died later. Many of the bodies from the prison were taken to the Menelik Hospital and not many of their families knew about what happened to their loved ones.

If this atrocity remains hidden, it will encourage the authorities to continue with their crimes and there will be nothing to prevent them from doing the same to the political prisoners now in Kality.

### **Human rights situation in Ethiopia: After the May 2005 elections**

The Ethiopian human rights situations deteriorated significantly since the evening of May 15<sup>th</sup> 2005. In the evening of the election day Prime Minister Meles Zenawi told the Ethiopian people that he has decided to bring all the military, security and police forces under his direct command and that were from then on solely accountable to him. In addition, he declared that any public meetings and demonstrations were banned and not allowed for a period of one month.

That decision of the ruling party and the announcement of the fraudulent provisional results of the election have led the country to a political crackdown and turmoil. The opposition parties accused the ruling party and government of rigging the election.

Opposition supporters started a protest against the announced result in a peaceful manner. However, the government started its widespread and systematic attacks directly targeting members and supporters of the opposition parties. It was reported by different local and international human rights organizations that the security forces committed human rights violations like acts of murder, torture, enforced disappearance of people, persecution against identifiable individuals and groups on political grounds.

Some of the major incidents which happened then were:

- On June 5, 2005 at midnight the campus security guards, accompanied by government security agents, entered student dormitories at Addis Ababa University Sidist Kilo campus and attempted to arrest some students who they suspected of being members and supporters of the Coalition for Unity and Democracy (CUD). The students reacted to the attempted arrest, gathered at Sidist Kilo campus and passed the whole night expressing their disapproval.
- On June 6, 2005 students continued the protest with a hunger strike in connection to the election irregularities. Regarding the results of the election, the students demanded that the problems be solved "by legal means" and demanded "respect for the vote of the people". Students from Arat Kilo, Amist Kilo and Sidist Kilo campuses gathered at Sidist Kilo campus. While they were peacefully protesting, members of the Federal Police invaded the campus at 11:00 a.m., beat the students, arrested them and took them to Sendafa Police Training Center. In addition to the Addis Ababa University students, some Kotebe Teachers' College students were also arrested and taken to Sendafa Police training Center. Although some of the students were released after a few days, 190 students were detained at least for one month at Sendafa military camp.
- Following the protest staged by the Addis Ababa University students, there were clashes between students of higher educational institutions and the security forces in different towns in the country. These clashes took place between June 6, 2005 and June 8, 2005.
- On 6<sup>th</sup> to 8<sup>th</sup> of June 2005, at least 62 people were killed, hundreds were injured, more than 4000 were arrested and detained at Ziway Prison and other thousands were detained in various regional states prisons and military camps. I was one of the detainees at Ziway Prison.
- November 1<sup>st</sup> to 4<sup>th</sup>, 2005 witnessed bloodshed in Addis Ababa. Federal Police and military force armed with heavy machine guns and sniper rifles shot indiscriminately and killed at least 70 innocent civilians who were protesting peacefully. At least 200 were wounded and more than ten thousand detained including leaders and members of CUD. Most of the victims were shot in the chest

***“Everyone has the right to life, liberty and security of person” Article 3-UDHR***

and head causing them to die in the streets of Mercato and some other parts of the capital. The number of people who were hospitalized because of injury and those that were treated at home because they could not afford the medical cost is more than 120. Many of the detainees were badly beaten. They were also prevented from being visited by their families.

- Families who went to hospitals to recover the bodies of their relatives were told that they had to sign a document saying that the opposition party was responsible for the killing.
- On November 2, 2005 mass killings of prisoners happened at Kaliti Prison in Addis Ababa and at least 60 prisoners were killed while they were in their cell with some of them still asleep. However police had reported to the public that only seven prisoners were killed while attempting to escape. I later will present to you the list of 60 killed prisoners with more detailed information.
- Following the CUD call for non-violent demonstration at the 31<sup>st</sup> December 2005, Police arrested and canceled the licenses of several taxi drivers in the capital Addis Ababa who had been taking part in a demonstration called by the main opposition party.

There were further daily student protests and clashes with police in January and February 2006, when a number of students were shot, wounded, beaten and tortured.

### **Conclusion**

The details of those innocent civilians indiscriminately killed and the attached photographs of their dead bodies have shown that many of them were shot in their chest and head causing them to die. These killings were committed by heavily armed military force with heavy machine guns and sniper rifles. The character of the killings clearly indicate that the intention of the government was not to stop the riots but suggest that it wanted to take revenge on residents of Addis Ababa for not giving them their vote for not voting in its favor.

All the evidences: photographs, detailed information's about the killings, testimonies of eye witnesses and other evidences about the incidents indicate that these acts of killings were committed by the government intentionally. Circumstances of the incidents indicated that government officials - particularly the direct commander of the security force PM. Meles Zenawi - had purposely allowed conditions that were causing mass deaths to continue.

***“Everyone has the right to life, liberty and security of person” Article 3-UDHR***

How does the European Parliament perceive the purposive killings and the reprisal shootings of innocent civilians by the Ethiopian authorities? How do you perceive the mass killing of 60 prisoners at Kaliti prison while some of them were sleeping? How do you perceive the fact of people being tortured to death in Ziway, Shewarobit, Dedesa, Sendafa, Tateq and other detention camps? How do you perceive the intentional starvation of thousands of political prisoners who are in detentions camps? How can the international community turn a blind eye to these deaths and crimes against humanity? I really need an answer for those questions. These are not only mine but also the questions of the over 70 millions Ethiopians.

As far as my little knowledge of the Western World is concerned, it is especially the European community that stands and is committed to principles that serve all humanity. Therefore I would like to make a call upon all individuals, governments, human rights organizations and donors who are committed to the promotion and protection of human rights all over the world to make their voices heard against those who committed crime against humanity in Ethiopia.

### **Recommendation**

**I call upon the European Parliament and members states of the European Union;**

- ❑ To condemn the continued detention of political prisoners including leaders of the opposition party Coalition for Unity and Democracy (CUD), journalists and human rights activists and demand for the immediate and unconditional release of all political prisoners in the country.**
- To take all necessary measures including banning of all your direct budget funds except humanitarian aid as the United Kingdom has done before to ensure that the Ethiopian government stops all acts of violence.**
- To establish an impartial and independent international enquiry that investigates the killings of 190 civilians and 7 police officers in the June and November 2005 incidents.**

**Thank you very much again,**

**I owe this testimony to God, my country and people and I will tell the stories of those killed and other victims to the world until justice is done. I trust you will help us with that.**

# Pictures of those murdered in November 2005

- They show the truth about power better than words can explain;
- They show that the killers used heavy weapons and snipers;
- They show that the killers were targeting the head and chests of the victims;
- They show that the killings were intentional;
- They show the degree of cruelty of these acts of murder;
- They show the tyrannical rule currently exercised in Ethiopia.

Therefore I have selected a number of photos to demonstrate and show you the pain and suffering of those murdered by the Ethiopian government's military and police officers.

# Remarks

- These pictures are not just numbers and images. That were fellow human beings, with dreams, loved ones and life plans.
- All these photographs were taken by the Federal and Addis Ababa Police Commissions' Evidence Collection and Documentation Department.
- I would like to use this opportunity to thank those government officials who made a great contribution to this testimony and who proved dedication and deep concern for the protection of human rights by providing these confidential documents which were hidden by the Ethiopian security force. I would also like to commend these officers for their readiness to be physical witnesses on the killings including the mass killing of prisoners at Kaliti Prison.
- These government officers are also willing to testify that the Ethiopian government had hidden some of the bodies of those who were killed at its two hospitals in Addis Ababa (Police Hospital and Torr Hailoch Hospital), and finally buried most of the deceased together in the same place without the knowledge of their families or relatives.

Testimony by Yared  
Hailemariam to The Members  
Of The Committees of The  
European Parliament.

# Recommendations

I call upon the European Parliament and members states of the European Union;

- To condemn the continued detention of political prisoners including leaders of the opposition party Coalition for Unity and Democracy (CUD), journalists and human rights activists and demand for their the immediate and unconditional release of all political prisoners in the country.
- To take all necessary measures including banning of all your direct budget funds except humanitarian aid as the United Kingdom has done before to ensure that the Ethiopian government stops all acts of violence.
- To establish an impartial and independent international enquiry that investigates the killings of 190 civilians and 7 police officers in the June and November 2005 incidents.

I owe this testimony to God, my county and people and I will tell the stories of those killed and other victims to the world until justice is done. I thrust you will help us with that.

Thank you very much again.
