Samantha speaking with forked tongue pinned down by interviewer. Problem of grain shipments to Africa not cause of Putin but US sanctions on shippers, insurance underwriters, port operators, who service shipments. Point index finger at Putin, 3 pointing back at Biden! 🤔👉

Last night on @Newshour I discussed what a once in a generation drought in Africa plus Putin's senseless war in Ukraine mean for global hunger. The US is stepping up to address staggering needs but the scale of the crisis requires a much bigger response from other countries.

RESPECT ETHIOPIA'S SOVEREIGNTY, US EMBASSY ADDIS ABABA!

@jakejsullivan, @USAmbUN, @AsstSecStateAF, @USAIDEthiopia,

@MikeHammerUSA,

**STOP RECRUITMENT OF ETHIOPIAN "VOLUNTEERS" US EMBASSY  
ADDIS: RESPECT ETHIOPIAN SOVEREIGNTY!**

On August 2, 2022, the US Embassy in Addis Ababa announced it is seeking "volunteers who reside in Ethiopia & who speak English & the language spoken in their region of residence."

This is an outrage!

Is the US Embassy looking for "volunteers" or is it trying to recruit trainees openly and audaciously for its continued interference in Ethiopia's internal affairs and grey war on Ethiopian people and government?

Is the US Embassy in broad daylight trying to create a vast network of "volunteer" intelligence operatives in the name of a vague and dubious "communication" mission?

**Since November 2020, US "communication" on Ethiopia has been nothing but DISINFORMATION AND LIES.**

In November, December of 2021, and January of 2022 alone, US Embassy sent out hundreds of thousands of "communication" by email, text and other means to urge Americans and all other expatriates to leave Ethiopia immediately to facilitate takeover of power by the terrorist TPLF.

These "communications" were filled with hateful lies and malicious disinformation about the collapse of the Ethiopian government and the impending implosion of Ethiopia in an ethnic conflagration. The twin aims of the "communication" were: 1) demoralization and destabilization of Ethiopian society and 2) demonization, marginalization, stigmatization, penalization and ostracization of the legitimate government of Ethiopia.

Why is the US Embassy bypassing the Ethiopian government in its efforts to recruit "volunteers"? Why not work jointly to create an accountable and transparent "volunteer" program that helps both countries?

Simple! The US Embassy believes it can do whatever it wants in Ethiopia with impunity.

**US EMBASSY ADDIS ABABA! Ethiopia, the people of Ethiopia and the Government of Ethiopia MUST BE RESPECTED!!!**

The fact is "volunteers" for "communication" over time are trained to become intelligence assets in the host country. It has been done in other countries.

The call by US Embassy for "volunteers" further demonstrates depraved indifference and reckless irresponsibility as it places any unsuspecting volunteer in the crosshairs of suspicion in the society as an operative of US intelligence.

The US Embassy has an ethical and legal obligation of full public disclosure to the people and Ethiopian government and those likely to respond to the call with respect to its plans to recruit "volunteers".

There should be no "volunteer" recruitment without the express permission of the Ethiopian Government!

**STOP RECRUITMENT OF ETHIOPIAN "VOLUNTEERS" US EMBASSY, ADDIS. RESPECT ETHIOPIAN SOVEREIGNTY!**

Mike Hammer traveled on their first joint mission to Mekelle, Tigray, to encourage the launch of talks between the Federal Government of Ethiopia (FGoE) and the Tigray People’s Liberation Front (TPLF) under the African Union’s auspices.

Political dialogue is necessary to resolve the conflict in northern Ethiopia and achieve a durable peace. The Envoys welcomed the public commitment by both parties to engage in talks and expressed their readiness to support African-led mediation.

The Envoys agree that a swift restoration of electricity, telecom, banking, and other basic services in Tigray is essential for the people of Tigray, as recognized in earlier discussions with the Ethiopian Government. Tigray Regional President Debretsion provided the international community a letter to be passed to the Government of Ethiopia providing security guarantees for those who need to work to restore services. With this security assurance, there should be no obstacle for the restoration of services to begin.

Equally, unfettered humanitarian access to Tigray and the Afar and Amhara neighboring regions affected by the conflict is imperative, accompanied by the lifting of restrictions on cash, fuel, and fertilizers. Improved civilian-military coordination will help ensure effective and transparent aid distribution. Furthermore, the EU and U.S. are committed to providing assistance to all communities in need in Ethiopia, including those affected by drought and food insecurity.

Accountability is a key foundation for reconciliation. In this vein, the Envoys urged cooperation with, and access to the conflict areas for, the International Commission of Human Rights Experts on Ethiopia (ICHREE) to enable them to conduct a credible investigation.

The Envoys furthermore appealed to all sides of the conflict to refrain from hate speech and provocative rhetoric.

Great and wonderful news!!!

I am delighted and thank and congratulate Govt of UAE on an extraordinary diplomatic achievement. 🙌🙌🙌

I am most impressed by the statement:

"The 2015 Declaration of Principles remains a foundational reference point."

PERMANENT MISSION OF THE

TO THE UNITED NATIONS  
NEW YORK

#### Developments concerning the Grand Ethiopian Renaissance Dam (GERD)

*The following is a statement by the Permanent Mission of the United Arab Emirates to the United Nations, New York, the Arab Member on the UN Security Council:*

NEW YORK - 2 August 2022 - The United Arab Emirates (UAE) believes that a successful conclusion of negotiations on the GERD is within reach and recognises the great opportunity it presents to enhance and accelerate regional integration, while bolstering cooperation and sustainable development in the region and beyond in the spirit of "African solutions to African challenges".

In this context, the UAE underscores the essential role of the African Union (AU), welcomes the commitment of the three countries to the AU-led negotiations, and encourages them to continue negotiating in good faith.

Taking into account the progress already achieved through different initiatives undertaken in support of the AU-led process, the UAE believes the 2015 Declaration of Principles on the GERD remains a foundational reference point. The UAE supports the objectives of the parties to agree and resolve their differences to maximise the benefits to them and their peoples.

**STOP RECRUITMENT OF ETHIOPIAN "VOLUNTEERS" US EMBASSY  
ADDIS: RESPECT ETHIOPIAN SOVEREIGNTY!**

On August 2, 2022, the US Embassy in Addis Ababa announced it is seeking "volunteers who reside in Ethiopia & who speak English & the language spoken in their region of residence."

This is an outrage!

Is the US Embassy looking for "volunteers" or is it trying to recruit trainees openly and audaciously for its continued interference in Ethiopia's internal affairs and grey war on Ethiopian people and government?

Is the US Embassy in broad daylight trying to create a vast network of "volunteer" intelligence operatives in the name of a vague and dubious "communication" mission?

**Since November 2020, US "communication" on Ethiopia has been nothing but DISINFORMATION AND LIES.**

In November, December of 2021, and January of 2022 alone, US Embassy sent out hundreds of thousands of "communication" by email, text and other means to urge Americans and all other expatriates to leave Ethiopia immediately to facilitate takeover of power by the terrorist TPLF.

These "communications" were filled with hateful lies and malicious disinformation about the collapse of the Ethiopian government and the impending implosion of Ethiopia in an ethnic conflagration. The twin aims of the "communication" were: 1) demoralization and destabilization of Ethiopian society and 2) demonization, marginalization, stigmatization, penalization and ostracization of the legitimate government of Ethiopia.

Why is the US Embassy bypassing the Ethiopian government in its efforts to recruit "volunteers"? Why not work jointly to create an accountable and transparent "volunteer" program that helps both countries?

Simple! The US Embassy believes it can do whatever it wants in Ethiopia with impunity.

**US EMBASSY ADDIS ABABA! Ethiopia, the people of Ethiopia and the Government of Ethiopia MUST BE RESPECTED!!!**

The fact is "volunteers" for "communication" over time are trained to become intelligence assets in the host country. It has been done in other countries.

The call by US Embassy for "volunteers" further demonstrates depraved indifference and reckless irresponsibility as it places any unsuspecting volunteer in the crosshairs of suspicion in the society as an operative of US intelligence.

The US Embassy has an ethical and legal obligation of full public disclosure to the people and Ethiopian government and those likely to respond to the call with respect to its plans to recruit "volunteers".

There should be no "volunteer" recruitment without the express permission of the Ethiopian Government!
