And a river went out of Eden to water the garden; and from thence it was parted, and became into four heads.

The name of the first [river] is Pison: that is it which compasseth the whole land of Avilah, where there is gold;

The Honourable Marilise Joly
Minister of Foreign Affairs
Global Affairs Canada

Dear Minister Joly,

We write to you on behalf of the Canada-wide Ethio-Canadian Network for Advocacy and Support (ECNAS) and the ten provincial Canadian chapters which represent the large, and very proud, Ethiopian community of Canada.

We wish to communicate our extreme disappointment with Ambassador Stéphane Jobin's recent engagement with leaders of the Tigray People's Liberation Front (TPLF), an outlawed terrorist organization, under the guise of 'Finding A Political Solution to the Conflict in Northern Ethiopia'. This group of TPLF terrorist leaders not only murdered thousands of soldiers across the federal armed forces' northern command outposts - an incident which triggered the war in northern Ethiopia - but has also caused enormous levels of human and material destruction across the regional states of Tigray, Amhara, Afar and Oromia. Most concerning has been the empirical evidence emerging and corroborated across a number of credible and independent research reports confirming that the TPLF forcibly recruited, trained and deployed child soldiers into a rebel force - and arrested and imprisoned members of families who did not hand over their children for this purpose. In addition to this international war crime, the forcible recruitment of soldiers on leave from international peacekeeping missions into the rebel force is another war crime under the Geneva Conventions on Prisoners of War.

To date, the Ethiopian community feels that Canada's position on the conflict, and its communication with the government of Ethiopia, has reflected the democratic values, norms and principles which Canada stands for. This, in our view, erodes its strength in the world as a country which promotes inclusive peace, fairness, decency, and rule of law.

Whereas we appreciated Canada's support for peacebuilding in Ethiopia, we feel that Ambassador Jobin's recent engagement with the TPLF leaders in Mekele, which was exposed to the world on social media, was unfortunate and counterproductive. We also

posing for a "settle" with an outlawed terrorist organization and its leaders who committed war crimes, genocide, rape and massacres of innocent children and women in the Afar, Tigray, Amhara and Oromia regions.

Despite the government of Ethiopia being clear in its briefing to the Ambassadors and Ethiopians who visited Mekele that peace talks would only be brokered by the African Union (AU), the undiplomatic display of diplomacy has unfortunately been interpreted - rightly or wrongly - as a cynical attempt to legitimize and embolden the illegitimate terrorist group while undermining Ethiopia's sovereignty, and the AU.

Canada has never supported an outlawed terrorist group abroad, nor should it start doing now, or any time in the future.

It is our conviction that a lasting peace in Ethiopia can only be achieved by addressing the violent ethnic federalism structure imparted by the TPLF terrorist organization and by developing a culture of peace through true reconciliation, justice, and human-centred approach, characteristics which Canada has become globally renowned to represent.

As such, ECNAS requests an official apology from Ambassador Jobin, and Global Affairs Canada, to the Ethiopian Canadian public, the Ethiopian people and the many victims of the TPLF terrorist organization.

Respectfully,

Ethio-Canadian Network for Advocacy and Support (ECNAS)
